## Front End Developer

+91 7600438276

[ahirkaran218@gmail.com](mailto:ahirkaran218@gmail.com)

Ahmedabad, india

### PROFESSIONAL SUMMARY

I am Front End Developer with hands-on experience in identifying web-based user interactions along with designing and implementing highly-responsive user interface components by deploying React concepts. Proficient in translating designs and wire-frames into high-quality code, and writing application interface code via JavaScript and React JS workflows. Adept at monitoring and maintaining frontend performance and troubleshooting and debugging the same to bolster overall performance.

### PROJECT

- January 2023 - April 2023

#### Movix - review

I designed and developed a web application that fetched movie data from API and displayed it to users. Using my expertise in frontend technologies such as react.js, Javascript, HTML and CSS I implemented a user-friendly interface that allowed users to select movies and view detailed information such as ratings, Genres, Official video, Top Movie or TV show, and more. The project provided me with an opportunity to showcase my skills in web development and problem-solving.

- January 2023 - March

#### Portfolio - using React

Developed a responsive portfolio website using React, showcasing my projects and skills. Created an interactive user interface to highlight my work and experiences

### EDUCATION

- October 2021 - Now

#### Bachelor of computer Application

Monark University / india, Ahmedabad
